Human-Computer Interaction student dedicated to advancing digital accessibility through research-backed design and WCAG-compliant development practices. Demonstrates leadership in accessibility remediation, cross-functional collaboration, and high-fidelity prototyping. Pursuing a Summer 2026 internship in Product Management, UX Research, or HCI with a focus on inclusive, user-centered solutions.

EDUCATION

University of California - Irvine

B.S. in Informatics – Human-Computer Interaction Specialization

Jun 2027

GPA: 3.23

- **Relevant Coursework:** Data Management, Human-Computer Interaction, Requirements Engineering, Software Testing, Information Visualization, Project Management

SKILLS

Technical: Python, Java, HTML, CSS, JavaScript, Prototyping, High-Fidelity Mockups, Wireframing, MySQL

Development Practices: UX Research, Accessibility Compliance, Team Leadership, Cybersecurity Threat Detection and Documentation

Tools and Technologies: Figma, Figjam, Web APIs, BitSight, Shodan

PROFESSIONAL EXPERIENCE

UCI Division of Teaching Excellence and Innovation (DTEI)

Digital Accessibility Supervisor

Irvine, CA, USA

Sep 2025 - Present

- **Lead and mentor** a team of accessibility consultants, answering remediation questions and best practices for WCAG standards.
- Conduct faculty consultations demonstrating Yuja Panorama with shadowing team members.
- Assign and manage remediation tasks of instructional materials to **improve usability** and **ensure accessibility compliance**.

INsite

UX Researcher and Designer – UROP Fellow

Irvine, CA, USA

Aug 2025 - Present

- Lead **user research** with professors to identify accessibility needs and create **Figma wireframes and mockups**.
- Collaborate with a PhD student to translate ML-flagged deictic phrases into accessible visual feedback.
- Report progress to campus undergraduate research fellowship organization.

Key Project

- Design and **prototype** a dashboard that visualizes inaccessible language in recorded lecture videos.
- Conduct **usability testing interviews** with professors to validate **accessibility** and user flow.

CCC Security Center

SOC Analyst Intern

Remote

Jul 2025 - Sep 2025

- Lead team in conceptualizing a Python script with Bitsight APIs **to automate cybersecurity threat detection** and analysis.
- Apply open-source intelligence tools to **investigate and analyze cybersecurity incidents** across 116 schools.

RELEVANT EXPERIENCE

FUSION ICS Project

UX / UI Designer

Nov 2025 - Present

- Collaborating with 4 designers on user research and UI design to connect Filipino Americans to their heritage.
- Conduct user interviews to assist the concept of a culturally focused cooking platform centered on family recipes.

Key Project

- Designed the **recipe card with pop-up component**, including recipe overview (creator, duration, origin).
- Built the **ingredient alternative search component**, focusing on clarity and accessibility for novice cooks.
- Completed **full functioning prototype** in Figma, integrating all components into a cohesive, testable concept.

Hack at UCI

Corporate Co-Director

Nov 2023 – Dec 2025

- Manage relations and communication with **80+ sponsors** to **fundraise \$39,000+** for events with **400+ participants**.
- Mentor new 8+ organizers and standardize sponsorship processes through documentation and outreach pipelines.

VenusHacks

Co-President

Jul 2024 - Jul 2025

- Directed organizing team of 40+ students UCI's only women-centric hackathon with **200+ participants** annually.
- Oversaw a **budget of \$10,000+**, including corporate fundraising, university allocations, and grant management.

PROJECTS

Quizlet Interface Redesign - Student Verification Feature

Nov 2023 - Nov 2023

- Led UX research to redesign Quizlet by introducing a **Student Verification feature**, enabling verified students to mark study sets as accurate and trustworthy.
- Conducted user interviews to **understand pain points** around content credibility, then **synthesized insights** into personas, task flows, and verification-driven user journeys.
- Designed wireframes and high-fidelity mockups for the verification badge, voting interaction, and **search-page sorting by "Most Verified"**, improving discoverability of reliable study sets
